Lieutenant "Billy" Old, of the Arizona Rangers, arrived in the city last evening, accompanied by Ranger Bates, after an absence of several months, during which time he has been making his headquarters in Williams, Coconino county, on the northern border of the territory. When asked concerning conditions in that portion of the territory, Old stated they were running along very smoothly. He said that there was very little lawlessness in that section at the present time, although a few cases of cattle stealing had been reported. Old will probably spend a couple of days here and later return to the north.

ELKS WILL GIVE DANCE.

The local lodge of Elks will give a dance at the club house on Main street next Tuesday evening, October 23, for members of the order and their lady friends exclusively. The committee on arrangements, consisting of E. C. Corey, John H. McGregor, James Ball and James Nichols, has been busy during the past week or ten days making preparations for the big affair. Both the railroad people and the fair committee are expecting a very large attendance from Cochise county this year basing their expectations on the showing made a year ago, when more than 1500 people attended from this section of the territory alone.

THROUGH SLEEPERS ON TRAINS.

During fair week, according to announcements made by the officials of the Southern Pacific company, Pullman sleepers will be attached to the daily trains running from Cochise county to the capital city. Great inconvenience was experienced last year because of the changes, which will be eliminated by the new arrangement. Both the railroad people and the fair committee are expecting a very large attendance from Cochise county this year basing their expectations on the showing made a year ago, when more than 1500 people attended from this section of the territory alone.

WORK BEGINS BY OIL COMPANY.

The business men of Bisbee who have stock in the Perea Oil & Development Co., are very highly pleased at the way their holdings are being developed. The work has been pushed so rapidly that the actual operations are already under good headway. The drill is now down three or four hundred feet, and the indications all the way through indicate that they are in the neighborhood of oil bearing strata. Santa Rosa, N. M., is where the company is prospecting for oil.

FIRE ALARM TURNED IN.

A fire alarm was turned in last night at 10:35 for J. E. Mosier's butcher shop on Main street. The alarm was recalled before the company left the fire station. A motor had been left running and becoming hot raised a smoke and smell that made the people living in that neighborhood think the whole country was afire. No damage was done.

JOHNSON ASKS \$27,250 DAMAGES FROM POWERS.

(Tucson Star.)

Most everyone down in Santa Cruz county knows James Johnson, who lives in Patagonia, and for more than a year has been owning the Inyohoe mine, eight miles west of that town. Then there is Frank Powers, known not only in Santa Cruz county, but throughout the territory as the owner of the really famous World's Fair mine, located twelve miles east of Patagonia, and held by the owner at a valuation of about \$1,000,000. Here you have the principal characters in a dramatic comedy that commenced out there some few years ago, and has now reached Tucson on a transference to the district court here by agreement.

Johnson was arrested late in 1903 charged with digging holes in and building fences across a highway down in that country, at the instigation of Powers. Johnson was bound over to the grand jury upon a felony charge. In December of the same year he was indicted by the grand jury. In June, 1904, his case reached the trial stage, but he was discharged upon motion of the district attorney, who declared there was insufficient evidence upon which to base the serious charge made.

Now comes Mr. Johnson with an action against Powers, alleging that by reason of the foregoing he was out in time and direct expense the sum of \$250, and a further sum of \$2,000 in attorney's fees. It is further alleged: "That he was greatly injured in his person by being imprisoned and by being forced to leave his home and attend the trial of the case, and that he was greatly injured in mind and body by the great agony and worry occasioned by being thus prosecuted as a criminal to the sum of \$15,000. That he has been greatly scandalized among his neighbors and injured in his good name and reputation by his damage in the sum of \$10,000."

GENERAL MINING NOTES.

Reports from the Hole mine, where an exceedingly rich gold strike was made last week, or rather discovery of gold, in ore thrown aside as valueless, show the returns to have been correct as reported. During the week several other assays of the ore, made in order to support the first, were had, all showing gold, silver and lead in large values. If the ore vein in which the gold was encountered proves to be big enough, it can hardly be doubted that D. T. Green and J. A. Wilson, owners of the property are on "East Street." The owners have not as yet determined what steps they will take toward development, but it is probable that they will start work on a larger scale than has heretofore been in force.

In the Cerro Prieta gold belt, matters are looking up, according to reports reaching the city last week. While only one property of any size is running at present the showing they have is said to be very fine. This is at the Rey de Oro mine, owned by a group of Chicago capitalists. Development work in both shaft and tunnels is proceeding steadily, and it is reported several tons of good grade gold bearing ore are on the dump. This property is near the old Klondike mine which was closed some time back on account of water.

At the Cerro Prieta, another prop-
